A NARROW ESCAPE.

Young Lady Rescued from Watery Grave by her Friend, Miss Wells. Timely Assistance.

The recent outing of the party composed of W. S. Mabson and family, Silas Keeton and family, Dr. Howard Mayfield, E. E. Garnett, Misses Maud Wells, Eugenia Mayfield and Miss Dabney, was most enjoyable, but the pleasure of the occasion came very near being marred by an accident most horrible in its nature, and the thoughts of which no doubt causes a shudder to pass over those who witnessed the scene, notwithstanding the timely rescue.

The ladies of the party had repaired to the stream for a bath and were, at the time in water about four and a half feet deep. Miss Eugenia Mayfield ventured to a point where the water was up to her neck and those present noticed that she went under, and supposed that she was diving, but as she started to sink the second time, they realized that she had lost control of herself and was in great danger of being drowned. Miss Maud Wells rushed to the rescue and prevented her from going down again, and saving the young lady from what came near being an untimely and awful death.

We understand that Miss Mayfield's loss of control and consequent danger was due to the fact that her clothing became entangled about her body and prevented a free use of herself at the time when she could have otherwise battled the angry water.

FAMILY WAS POISONED.

Lee Burdick and Family at Ozona Were Poisoned by Something They Had Eaten.

Wednesday morning news reached San Angelo by phone, that Lee Burdick and family, who recently moved from this place to Ozona, were in a dangerous condition from the effects of poison, supposed to have been taken in connection with their breakfast food. A message later in the day announced the fact that Mr. and Mrs. Burdick had revived and were thought to be then out of danger, but Little Burl, their 4 year old son, was still unconscious and there was no hope for his recovery.

The means through which they acquired the poisonous substance has not been determined and we understand that the only article of food of which they all partook, was milk from a bucket that had been placed in the window and permitted to remain there over night to keep the contents cool. To render the incident more mysterious in its nature, the attending physicians pronounced the symptoms indicative of arsenic poisoning.

Thursday morning a telephone message was received to the effect that Mr. Burdick and wife continued to improve, but the baby had not regained consciousness and the physicians did not think he could possibly get well.

Later reports are to the effect that Mr. and Mrs. Burdick have about recovered and that the little boy is out of danger and getting along nicely, which will be glad news to the many friends of the family at this place, who manifested much interest in their condition and were eager for the news contained in each message received.

Hagelstein-Barsch.

The German church, on Oakes street, was well filled on last Wednesday afternoon by a large number of friends who had gathered to witness the marriage of Mr. Hermann Hagelstein and Miss Anna Barsch. At about 3:20 all were in readiness and the pastor, Rev. E. Rudolf, pronounced the words that made the happy pair man and wife.

The church was appropriately decorated for the occasion and the attendants were Misses Emelie and Marie Barsch and Messrs. Henry Eckert and Fritz Barsch. After the ceremony the bridal party were driven to Ragsdale's studio, where photo's of Mr. and Mrs. Hermann Hagelstein were taken and thence they went to their new home on Capitol Hill, in the northern portion of the city. Here, beside the bridal party, had gathered a number of friends including the pastor, Mrs. Oscar Eckert, Mrs. Patsch and others, and all made merry in honor of the nuptial event.

The festivities lasted until near mid-night and soon after the stillness of the night covered the neighborhood. But some two hours, after, all were awakened by a most indescribable "racket," for a party of Hermann's friends had come, armed with cowbells, tin cans, etc., bent on delivering a serenade on the old-time charivari order.

This, too was soon over, but only for the time being for in the morning Hermann arose to make the fire and get breakfast (like all good husbands do—when they're new) and, try as hard as he could, and blow all he would, the fire wouldn't blaze, and smoke soon filled the room. Then Hermann bethought himself of the charivari party of a few hours before, "smelt a nice," climbed out on the roof, inspected the fuses and discovered the cause—it had been stopped up with a few tow sacks. He took it all good naturedly, like the sensible fellow he is, and everything is now serene.

The lucky groom in this marriage is one of the most popular and steadiest young men in the city, and it is not saying too much to state that he is fully deserving of the splendid life partner he has secured. The bride is a charming daughter of Mr. and Mrs. Henry Barsch honored citizens of Concho county.

The Press sincerely hopes that the entire married life of Mr. and Mrs. Hagelstein will be an ideally perfect one, and no one else who know them will wish them any less.

Just Look at Her.

The frequent runaways as a result of the teams being left hitched to vehicles, should demonstrate the danger of such a practice and impress the public with the importance of more precautionary measures. So far no one has been seriously injured, but it is extremely dangerous and unless the public is more cautious lives may yet be lost as a result of the practice.
